COMPANY PROFILE

Water Systems and Supplies was established in 1995 and has since become a major supplier of brand name water industry related products and equipment. WSS is the ultimate source for all your water needs. Our company provides a host of services including the manufacturing and installation of specialty water filtration systems for both commercial and residential locations with special expertise in the industry popular Reverse Osmosis (RO) systems. WSS also specializes in wholesale distribution of products for retail sale, providing water store owners with thousands of items of merchandise. This versatility makes WSS a complete source for any water industry need. Essentially, WSS can build a water business from the ground up. What sets WSS apart is that our company firmly upholds a philosophy of superior quality and outstanding customer service.

residential systems

Reverse Osmosis Systems

6-stage RO System
part no. RO-650

5-stage RO System
part no. RO-550

Reverse Osmosis has been acclaimed as one of the best ways to purify your water and rid it of any contaminants. WSS carries residential systems specifically designed to be compact and easy to maintain. These multiple stage systems fit conveniently under any standard sink and a faucet is professionally installed right next to your existing kitchen faucet for easy dispensing. RO Systems provide water you can drink right out of your kitchen sink.

Water softeners are installed into your home's main water line to ensure that the entire water supply is softened. Soft water benefits you and your home: no more hard water stains in your bathroom or kitchen, showering with soft water leaves hair and skin moist and feeling soft, and you can even notice the softness in your laundry.

Our coolers are attractive and space efficient in addition to being highly durable and rust-free. They are a practical addition to any home or office and come in models that offer a combination of hot & cold or room temperature & cold. They come in a variety of colors and designs that will look great in any home or office. WSS only stocks coolers that are electric as opposed to thermo-electric with a high quality built-in compressor that will provide you with years of worry-free service.

premium stands

Floor Stands
Available in 27” and 30”

Stylish oak stands that are space efficient and durable. All stands are lightly oiled for easy cleaning and come with four levelers that screw in for uneven surfaces. Or choose our modern, fashionable metal stands that are rust-free and highly durable. Metal stands are available with convenient shelves to store extra bottles or with gorgeous floral and grape vine decorations that go perfectly with our porcelain dispensers. Our premium stands come in a variety of colors to complement any household or office as well as match your porcelain dispenser. All stands are made specifically to withstand heavy loads.

Counter Stands
Available in 6” models

When our standard size stands aren’t space efficient enough, the “counter stands” will remedy this problem. With a more compact size, the counter stand will enable your standard size porcelain dispenser and 3 or 5 gallon water bottle to fit onto any countertop or tabletop. They are made of the same high quality oak as their taller counterparts.
